- (2) the broadened mandate given by the Heads of State and Government of the Group of Twenty (London Summit, 2 April 2009, “Declaration on Strengthening the Financial System”);
- (3) the call of the Heads of State and Government of the Group of Twenty to re-establish the Financial Stability Board “with a stronger institutional basis and enhanced capacity” (London Summit, 2 April 2009, “Declaration on Strengthening the Financial System”); and

Recognising the need to promote financial stability by developing strong regulatory, supervisory and other policies and fostering a level playing field through coherent implementation across sectors and jurisdictions.

We, the Members of the Financial Stability Board, have set forth the following Charter:

## I. General provisions

### **Article 1. Objectives of the Financial Stability Board**

The Financial Stability Board (FSB) is established to coordinate at the international level the work of national financial authorities and international standard setting bodies (SSBs) in order to develop and promote the implementation of effective regulatory, supervisory and other financial sector policies. ### **Article 2. Mandate and tasks of the FSB**

- (1) As part of its mandate, the FSB will:
  - (a) assess vulnerabilities affecting the global financial system and identify and review on a timely and ongoing basis the regulatory, supervisory and related actions needed to address them, and their outcomes;
  - (b) promote coordination and information exchange among authorities responsible for financial stability;
  - (c) monitor and advise on market developments and their implications for regulatory policy;
  - (d) advise on and monitor best practice in meeting regulatory standards;

- (e) undertake joint strategic reviews of the policy development work of the international standard setting bodies to ensure their work is timely, coordinated, focused on priorities and addressing gaps;
  - (f) set guidelines for and support the establishment of supervisory colleges;
  - (g) support contingency planning for cross-border crisis management, particularly with respect to systemically important firms;
  - (h) collaborate with the International Monetary Fund (IMF) to conduct Early Warning Exercises; and
  - (i) undertake any other tasks agreed by its Members in the course of its activities and within the framework of this Charter.
- (2) The FSB will promote and help coordinate the alignment of the activities of the SSBs to address any overlaps or gaps and clarify demarcations in light of changes in national and regional regulatory structures relating to prudential and systemic risk, market integrity and investor and consumer protection, infrastructure, as well as accounting and auditing.

### **Article 3. Consultation**

In the development of the FSB's medium- and long-term strategic plans, principles, standards and guidance, the FSB will consult widely amongst its Members and with other stakeholders including private sector and non-member authorities. The consultation process will include regional outreach activities to broaden the circle of countries engaged in the work to promote international financial stability.
